

Class Charts Badges

As part of our Class Charts reward system students are able to gain subject badges within the Class Charts app. Each subject has created a badge or range of badges which will be awarded to students via the app when they reach certain thresholds of positive comments within the subject. Parents or guardians will receive notification of the award via the Class Charts parent app and students will receive a badge icon in the badge section of the pupil app. A guide to the current thresholds for badges is included below.

Courageous Creative x 1

Note-worthy x 1
